

Outline

- General Procurement Requirements
- Overview of CUIR SP1 DB Procurement
- Planned Procurement Timeline RFP through Award
- Selection Process and Evaluation Factors, Step 1 and Step 2
- Stipend
- Award Fee Plan
- Firms excluded from SP1 DB Subcontract
- Best Practices
- Conclusion

General Procurement Requirements

- Questions about this project need to be submitted only to the Procurement Specialist (the single point of contact during the RFP through Award process).
 - Direct communication with the Project team during the RFP Process can be grounds for disqualification.
- Offerors must be registered and in good standing with the System for Award Management (SAM.gov) at time of award.

Overview of CUIR SP1 DB Procurement

- CUIR Subproject 1 (SP1) is Federally Funded
 - Davis-Bacon Prevailing Wages/Certified Payrolls apply
 - Buy American Act applies
 - Federal Fiscal Year is October to September
- Specifics of the CUIR SP1 Procurement
 - Design-Build, Firm-Fixed-Price Award-Fee subcontract
 - Two Step Sourcing Method Best Value Trade-Off
 - Section L contains the Instruction to Offerors (submittal requirements)
 - Section M contains the Evaluation Criteria

Planned Procurement Timeline – RFP through Award:

| RFP Release Date ———————————————————————————————————— | Mar 2024 |
|---|-----------|
| Step 1 RFI Submittals Due Date ———————————————————————————————————— | Apr 2024 |
| Step 1 Qualification Proposals Due Date ———————————————————————————————————— | May 2024 |
| Step 1 Evaluations and Select 3 Most Highly Qualified Offerors ———— | Jun 2024 |
| | |
| Step 2 Site Visit & RFI Submittal Due Date ———————————————————————————————————— | Jul 2024 |
| Step 2 Technical & Cost Proposals Due Date | Sept 2024 |
| Step 2 Interviews ———————————————————————————————————— | Oct 2024 |
| SLAC Recommend Successful Offeror for DOE for Approval ———————————————————————————————————— | Jan 2025 |
| DOE Approval and Project Award | Apr 2025 |

Selection Process and Evaluation Factors – Step 1

Step 1 - Statement of Qualifications (SOQ)

- 1) Qualifications History & Local Presence, Licenses & Certifications, and Compliance with Civil & Criminal Laws
- 2) Safety Compliance with OSHA (California and Federal) & Safety Culture
- 3) Staffing and Proposed Team Organization Organization Structure, and Prior Experience Working as a Team
- 4) Relevant Experience Management Experience with Projects of Similar Size and Complexity
- 5) Financials Bonding Capacity, Line of Credit, Dun-Bradstreet Report, and Exceptions to Terms & Conditions

Selection Process and Evaluation Factors - Step 2

Step 2 – Technical and Price Proposals

- Volume 1 Technical Proposal (no price proposal details)
 - Management Approach
 - Environmental, Safety, Health and Quality Acumen
 - Engineering and Construction Solutions
 - Interviews
- Volume 2 Price Proposal
 - Contract Documentation
 - > Small Business Contracting Plan
 - Price

Stipend

Purpose of Stipend

- Encourage Step 2 Submittals to be creative, comprehensive and complete.
- Unsuccessful Offerors in Step 2 will receive a stipend of \$60,000 each. Condition for accepting the stipend:
 - SLAC shall have right to the proposed technical documentation
 - Offeror may decline the stipend to retain the rights for their proposed technical documentation

Award Fee Plan

Purpose of Award Fee Plan

- Establish an administrative process for:
 - Evaluating the Offeror's Design-Build performance, and
 - Award method for outstanding performance
- Award Fee Pool
 - Maximum fee of \$500,000.00, and
 - Minimum of \$0
- Six (6) Evaluation Periods over the performance period of 54 months

Firms Excluded from SP1 DB Subcontract

- Federal regulations exclude A&E that produced the conceptual design and bridging documents from participating in the same Design-Build Subcontract.
 - Arup prepared the bridging documents and therefore is excluded.
- Additional firms excluded from being sub-tiers on the Design-Build Subcontract due to potential conflict of interest.
 - YEI Engineers
 - Burns & McDonnell

Best Practices

- Identify the factor and sub-factor you are addressing within your response (Ex: Sub-factor 1.1, etc.).
- Confirm all applicable documents are completed and attached.
 - This includes all Amendment to Solicitation forms.
- Price Breakdowns should align to the line items identified in Section B and the breakdown sheet identified on Section L, Attachment B.
- RFIs should be submitted solely to the Procurement Specialist.
 - Do not copy any of the Project Team.

Conclusion

- Final RFP will be released after DOE review is completed.
- Any further questions that were not asked during this Industry Day should be held until the official RFP release.
- SLAC relies on successful delivery of CUIR to enable continued science discovery.
- CUIR is a complex project with unique challenges. SLAC is looking forward to partnering with a highly qualified design-build team to complete this project safely and with quality.

Thank you for your attendance!

Section B - Supplies or Services and Price/Costs

Base Scope - Critical Utilities Infrastructure Revitalization (CUIR) Subproject 1: Critical Electrical Systems Improvements Project

Scope 1-1 Master Substation Expansion

Scope 1-2 Transformer T-1

Scope 2-1 Cable Trays and CUIR1-4 Feeders

Scope 3 Sector 4 Switchgear Installation

Additive Scope 1

Scope 1-3 Transformer T-2

Additive Scope 2

Scope 1-4 Trigger Current Limiters

Additive Scope 3

Scope 2-2 CUIR3 and CUIR4 Final Load Connections

Additive Scope 4

Scope 2-3 CUIR5-8 Feeders

Additive Scope 5

Scope 2-4 CUIR5-8 Final Load Connections

Section L - Attachment B: Proposal Breakdown Sheet

| | DESCRIPTION | | SCOPE 1 | | TATION IMPROVE | EMENTS | SCOPE 2 | - LINAC POWER | DISTRIBUTION SY | SCOPE 3 - S4 SWITCHGEAR INSTALLATION | |
|----------|---|------|-------------------------------|--------------------------|--------------------------------|-------------------|-----------|---------------|-----------------|--------------------------------------|---------|
| | | | Scope 1-1 MSS Bldg Base | Scope 1-2 T-1 Base | Scope 1-3 T-2 Additive 1 | Scope 1-4 TCLs | Scope 2-1 | Scope 2-2 | Scope 2-3 | Scope 2-4 Additive 5 | Scope 3 |
| | | | | | | | Base | Additive 3 | Additive 4 | | Base |
| 02 00 00 | Existing Conditions/Demolition | | | | | | | | | | |
| 03 00 00 | Concrete | | | | | | | | | | |
| 04 00 00 | Masonry | | | | | | | | | | |
| 05 00 00 | Metals | | | | | | | | | | |
| 06 00 00 | Woods / Plastics | | | | | | | | | | |
| 07 00 00 | Thermal / Moisture Barriers | | | | | | | | | | |
| 00 00 80 | Openings | | | | | | | | | | |
| 09 00 00 | Finishes | | | | | | | | | | |
